DETAILED ACTION

Allowable Subject Matter

1. Claims 1-18, 20-29, 31-41 and 45-51 are allowed.

The following is an examiner's statement of reasons for allowance: Independent claims 1, 14, 25, 35, 41 and 50, when considered as a whole, are allowable over the prior art of record.

Specifically, the prior art of Dwek teaches the limitation: "a multimedia content delivery system for delivering multimedia content by means of a toolbar comprising of a plurality of selectable controls presented either as the top most or bottom most layer in a z-stack layer of windows; wherein the tool bar uses the operating system shell to render itself", But the claims recite a different combination of limitation: *"media-playing application including a player deskband and a play controller configured to enable a user to control media through a player user interface having multiple controls integrated into an existing taskbar user interface associated with the shell process... the multiple controls displayed in the taskbar"*, (such that the deskband is inside of the operating systems default taskbar) that is not suggested or shown by Dwek.

The dependent claims further add limitations to the allowable subject matter of the corresponding independent claims; thus are also allowable. Therefore the claims are

Art Unit: 2179

allowed over the art because the claims differ in scope that is not seen or suggested by the prior art.
